- The Barn**
Offers intimate inside seating as well as outside seating making it the ultimate family hangout, part of the restaurant is also available as conference venue and functions
- Milking Parlour and Stable**
Viewing of our dairy cows being milked is a daily occurrence and takes place at our viewing gallery from 14h30 to 15h30. This is where kiddies learn more about where milk comes from.
- Wishing Well**
The famous wishing fountain has been moved towards the walkway entrance of the farm. Your pennies will help so many as all proceeds are donated to local charities.
- Kids Playground-**
Ensuring hours of fun for little ones
With loads of space to run, a fun jungle gym to climb and some old tractors as well as other farm equipment to explore, the kids will be entertained for hours.
- Maternity Ward -**
Watch calves being born
Otherwise known as the Farm's 'Hospital', this area is close to our farm workers so that cows and calves are cared for as soon as they need assistance.

- Crèche - Baby calves (0 to 1 year old)**
Our little ones are kept under the watchful eye of the care taker for the first few months of their lives. He feeds them twice a day and checks that they're growing up to become strong, healthy cows. Come along and view them - they love to give cow kisses (licks) to anyone who comes close enough.
- Visit our ponds**
The ideal spot to take a picture or two, feel free to buy a bag of corn kernels at The Deli and feed our birdlife, alternatively just take a break by resting on our natural benches, whilst soaking in all that nature has on offer.
- Little Calves - 1 to 2 years old**
The calves' playground whilst growing up consists mostly of their favourite treat which is grass! If you would like to feed them, merely offer them a nice green piece of grass and they will happily eat out of your hand
- Buy a Boat - Float it down our moat**
The Deli sells little boats that you can assemble and paint. Then watch the boat go down the moat to the dam, catch it and start again.
- Young Cows - 2 to 3 years old**
These teenagers are almost ready to join the herd. When they reach 3 years old the farmer artificially inseminates them so that once they have had their first calf they may join the milking herd. Wonder how old these cows are? Well the first number on their behinds are the year they were born and the second number is the number sequence in which they were born. These markings are added to their behinds when they are old enough or rather, when their behinds get big enough!
- River Walk**
Take a stroll down the tree-lined brick road or ride your bicycle and do the river loop! Whilst taking a walk, spot some animals or just enjoy the fresh air.
